A Bank.

We invite the special attention of our Car-
roll county Farmers, and business men generally,
to the call of a respectable number of per-
sons who are anxious to establish a Bank in
our county. Such an institution is greatly
needed. It is unnecessary for us to dilate on
the numerous advantages it will be to the
business of our county; for almost every busi-
ness man, Farmer and Mechanic, has frequently
felt the want of a Bank; where he could be
temporarily aided and entirely relieved from a
pressing emergency into which the fluctuations
of trade had placed him. The Free Banking
Law, is in full force, as decided by a unanimous
decision of the Supreme Court of Ohio. Re-
member, farmers all lend a helping hand!

News Paper Change.

Mr. Geo. W. BARLOW, the present Foreman
of this office has purchased an interest in the
Painesville Commercial Advertiser, and will re-
move thither about the first of April next. We
understand that he takes control of the me-
chanical department of that paper, for which
post he is well qualified. He has been fore-
man of this office since December 1854, dur-
ing which time he has promptly issued our pa-
per, and in such style that it will compare with
any weekly that has come under our notice.—
We feel assured that our readers will bear us
out in this assertion.

We are strangers to the other member of the
firm, but from what we learn of him, we are
assured that he is a worthy man, and we hope
the situation secured by Mr. Barlow will prove
a pleasant and profitable one.

WE wish to one to overlook the fact
that Mr. Wilson now keeps himself in readiness
(at the old stand on Main Street, formerly oc-
cupied by D. M. Jackson.) to fit any gentle-
man, from the ark to the head, in his line, as a
fashionable Tailor. He has the appearance of a
gentleman, and comes recommended as a
"finished workman." Give him a call,—a
profitable call.

MARRIED.—On the 12th inst., at the resi-
dence of her father, by the Rev. C. H. Ritter,
Mr. Jacob Ulman and Miss Sarah Bennington,
both of Carroll co. Ohio.

ACKNOWLEDGMENT.—We are indebted to
our Representative Hon. Silas Potts, for a Re-
port of the "Joint Committee on the Public
Works."

FINE WEATHER.—NOW'S THE TIME.—The
oldest settlers of this part of the country all
concur in the belief that John W. Gould can
take a better Ambrotype than any man this
side of the river Jordan. Give him a call,—
the pictures he has taken are so life-like, that
if one should insert his finger into the mouth
of one, we have no doubt it would be lit in
twin.

HOOP BALLOONS.—There is quite a favor-
amongst a class of editors about hoops and
crinoline skirts worn by the belles of the day.
It would be prudent for some of this class to
undergo a consular operation to make themselves
appear more like men and less like balloons, or
some other unsuitable animals, before engag-
ing so largely in strictures upon the appear-
ance of others. It is ungallant in those who
scribble for these penny papers to con-
sume all their wit at the expense of the ladies,
by meddling with their skirts, hoops &c. The
ladies find their own wholesome and timber for
hoops, or if they purchase wire of the tin smith,
they are able to pay for it, and of course ask
no boot of those long eared gentlemen who
trouble themselves so much about what is none
of their business. As to whether they will
or do, find trouble in getting into churles, or
to their own business surely. We are quite
confident if they should get in a "tight place"
at church, they would not see relief from this
class of "gemen." They are not usually
found in such places. It is "too dry a place"
for them.

MORE OF THE BURELL CASE.—We learn
from the New York Tribune that Mrs. E. A.
Burdell, (or Mrs. Cunningham the two Miss
Cunninghams, Mr. Eckel and Mr. Snodgrass
were released from custody by a writ of habeas
corpus, and the next day were re-arrested.

During a further investigation of the case al-
luded to, an anonymous letter was received by
the coroner, stating that the murder was done
by three men—that the people in the house
were innocent, and he intended to turn State's
evidence. Signed,
"One of the Three Murderers."

FIRE AT CANTON.—A fire broke out on Tues-
day night, the 10th inst., in the Union Livery
Stables, Canton, consuming them and the ad-
joining stable. A part of the Union House
was also destroyed by the fire, and otherwise
much injured, including the furniture, by wa-
ter and rough usage. In the stable, four
horses and twelve or fourteen carriages and
buggies, together with a considerable amount
of harness were burned.

HARRISBURG, Feb. 9.

There is a flood on the Susquehanna to-day.
The ice is gorged four miles below this city,
and is piled up on the railroad some ten or fif-
teen feet. The trains are of course suspended
both ways.

It is reported that a couple of bridges over
the Juniata have been swept away, together
with several pieces of the Cumberland Valley
bridge. An enormous destruction of property
is threatened.

EASTON, Feb. 9

The Delaware river has risen 15 feet, and
the town is flooded to the depth of 5 feet in
some parts.

A house has been washed away at Lamberts-
ville, and also a portion of Van Cleve's foundry
at Trenton. The bridges are all in a pre-
carious condition, the ice in some places being
up 20 feet.

Chess Ur.—An exchange calls on women
of all ages to cheer up and take fresh courage,
because the census shows that there are nearly
half a million more men than women in the
United States.

A FALLACIOUS FACILITATE.—Why ought
a tailor never to begin to make a coat till he
tries it on?—Because everything in connection
with business ought to be done at the fitting
time.

The Washington (Pa.) Commonwealth has
passed from the hands of J. S. Clossy & Co.,
and will in future be conducted by Wm. S.
Moore, Esq., at present holding the office of
Prothonotary of Washington county.

Pink, the witty comedian, was carving a
goose at supper, when John Everett called out
to the carver at the other end of the table,
"what sort of a fowl is that brother of your's,
Finn?" "It is almost as great a goose," re-
sponded the wit, "as I Everett!"

Graham for March has arrived. It is a
beauty. Nothing can exceed it. We are
quite sure that the circulation of this sterling
monthly would be largely increased if its ex-
cellent qualities were more extensively known.

New Special Notices.

Reasons and Common Sense.

Our readers may remember that we have on several
occasions referred in very explicit terms to a propo-
sition which Dr. S. T. Hanco, of 138 Baltimore street,
Baltimore, Md. has discovered for the cure of
"Aqua Nova," in doing so, we have been animated by
the very best motives, viz. the alleviation of human suf-
fering. Your circumstances which have lately come to
our knowledge, we fear there is a certain class of per-
sons who are not disposed to try this remedy in a com-
mon sense manner. We allude to the fact of selecting
a particular case in a town where perhaps there are six
or eight cases, and trying it on one case. Now, perhaps
the next person who is the only one of the whole
number that it won't cure. This is neither doing
themselves nor the medicine justice. If a dozen per-
sons were stricken down with the cholera in one town
or neighborhood, would they all send for a physician
or would only one employ him, and wait and see if he
could find the first patient? That plan of procedure would
be most absurd. So in the case of Dr. Hanco's remedy,
every one who has first tried it for a reasonable
length of time. It will not cure in a day or a week;
nothing worth doing can be accomplished at once. What
is easily done, is easily undone. The growth of time
the suffering. From the most respectable testimony we
have examined, we feel assured that by a proper per-
severance in this remedy, most cases of Cholera out of
ten may be cured. The Pills are sent by mail free of
postage to any part of the world. Price, one box \$3;
two \$5, twelve \$12. You will find the address above.

NEVER FAILS IN DYSPEPSIA.

Dr. C. M. JACKSON.—Dear Sir:—I take a pleasure in
sending you these few lines, recommending to all af-
flicted with that terrible disease, Dyspepsia, the valuable
properties of HOLLAND'S GERMAN BITTERS. For a
long time I was severely afflicted with that disease, and
in expectation of obtaining some relief, used a great many
preparations highly recommended for that purpose, but
all in vain. Being advised to try the German Bitters,
I reluctantly purchased a bottle. I felt so much re-
lieved by the use of that, that I obtained more of it,
and now after taking five bottles, I feel and consider
myself a better man than I have been for the last ten
years.

Yours respectfully, ANDREW YOUNGSON.

Holloway's Pills, an extraordinary remedy
for termination of blood to the head,—Henrietta Wright
of Newburg, New York, suffered most severely for
eight years and a half with termination of blood to the
head, so bad at times that she would fall down in con-
vulsions, and was unable to get up. She consulted three different
physicians, and steadily followed their advice, which
however failed to benefit her, and her dissolution was
hourly expected. At this time she tried Holloway's
Pills, which quickly did their work, by removing from
the system all the noxious matter, carrying off the bad
fluids, and left her in the enjoyment of perfect health.
Her friends have all been astonished at the apparent
transformation, yet all this has been effected by Hol-
loway's Pills.

their teeth are bad, and the subject is so delicate that
friends will never mention it. Beware of counterfeits.
